EXPERIENCE

WHATFIX | Frontend Development Intern
July 2020 - Present | Bangalore, India

MAILMODO | Frontend Development Intern
June 2020 – July 2020 | Bangalore, India
- Mailmodo is a Product based tech Startup.
- Worked on their main product for email marketing.
- Modelled complex UI screens using ReactJS.
- Worked on UI integration with API's.
- Attended regular follow up sessions with team lead and adopted better coding practices.

SPANISH BOLO | Frontend Development Intern
Jan 2020 - Mar 2020 | Hyderabad, India
- Designed the prototype for the website
- Developed the entire UI from scratch.
- Implemented responsiveness using Bootstrap.
- Worked on speed optimization for the website.

TEDXDUCIC | Website Developer
Jul 2019 - Aug 2019 | Delhi, India
- Developed the website for a TEDx event in Delhi.
- Worked on the UI development using Bootstrap.

PROJECTS

DICE-TO-WIN | Javascript, Html, Css, Pwa
May 2020 – May 2020
• A small JavaScript-based game with some sound effects. I have added a Progressive Web App feature so that you can directly access it from your Home screen as well as play it offline.
• Live At : https://vaibhavkaul69.github.io/dicetowin

TASK-LIST | Javascript, Html, Css, Pwa, LocalStorage API
Apr 2020 – Apr 2020
•Users can Add or Delete a task. Implemented PWA technology making it installable on different devices. Used the LocalStorage API to save a task and fetch it back. I have also implemented cache versioning.
• Live At : https://vaibhavkaul69.github.io/Task-List/

ZOOTOPIA | Javascript, Html, Css, LocalStorage API
Mar 2020 – Mar 2020
• Users can stream videos available on the internet. Used the CSS Flexbox for responsiveness. The browser LocalStorage API helped in data transfer between multiple pages.
• Live At : https://vaibhavkaul69.github.io/Headout/

ORGANISATIONS

President - The Dramatic Society, Jzaa
Mentor - Ingenious Coders
